SUMMARY

Data Engineer with 2 years of experience in Data Operation and analytics. Competent in SQL, BI tools, Python, Pyspark and Databricks. With an ability to translate business requirements into actionable insights and build data pipeline and dashboards that drive decision-making.

KEY SKILLS

Languages: Python, SQL, Py-Spark

Libraries/Tools: Pandas, NumPy, scikit-learn, Power BI, Tableau, Airflow

Machine Learning: Regression, Classification, Clustering, NLP

Soft Skills: Problem-solving, Communication, Collaboration, Observation & Critical Thinking

PROFESSIONAL EXPERIENCE

Tibil Solutions Pvt. Ltd. | Bengaluru, India

Nov '25 - Jan '26

Technical Intern - Data Engineering

- Developed a SQLData Warehouse from scratch, implementing full end to end database design and implementation
- Building scalable ETL pipeline using SQL, Python, Airflow and Pyspark to support analytics and reporting
- Collaborating with BI and Data Science team in designing and developing interactive dashboard in Power BI

Inspect & Buy | Bengaluru, India

Apr '25 - Oct '25

Business Analyst

- Collaborated with cross-functional teams to analyse customer behavior and optimise product listings.
- Built dashboards to track KPIs to track key performance indicators and improve operational efficiency

Deloitte | Bengaluru, India

Jan '25 - Mar '25

Intern - Job Simulation

- Streamlined Ingestion pipelines using Python & SQL to transform multiple sources into structured JSON
- Enhanced pipeline using Python, Pandas, & ETL frameworks to append & process structured JSON in database

MN Footwear Pvt. Ltd. | Agra, India

Jun '19 - Jan '22

Founder & Operations Analyst

- Streamlined inventory tracking reducing stock discrepancies by 25%.
- Coordinated with logistics and sales teams to improve order fulfilment timelines.
- Designed Dashboard to keep track of orders, inventory and user feedback.

PROJECTS

Customer Segmentation Using K-Means

Python, scikit-learn, PCA

- Clustered customers based on purchasing behavior and demographics.
- Applied PCA for dimensionality reduction and visualized clusters for marketing insights.
- Developed Interactive dashboard using power bi to communicate results.

Sentiment Analysis on Product Reviews

Python, NLP, Pandas

- Scrapped products reviews from Flipkart and Amazon
- Built a sentiment classifier for Inspect & Buy reviews using tokenization and lemmatization.

Topic Modelling on News Articles

Python, LDA, Gensim, spaCy

- *Scrapped data from open-source repos like Quora and Reddit.*
- *Extracted dominant topics using LDA and optimized coherence scores.*
- *Demonstrated ability to uncover hidden patterns in unstructured text.*

EDUCATION

Post Graduation Diploma in Data Science and Business Analytics | Texas McCombs School of Business & Great Learning
Bachelor of Commerce | Agra University
